

Application

Hazardous Tree Assessment & Services – Limited-Time Program

City of Orlando Families Parks and Recreation

The City of Orlando Families Parks and Recreation through the Urban and Community Forestry Grant Program, is offering a FREE tree assessment and service program to help residents address hazardous or at-risk trees that could pose safety concerns.

Certified arborists will inspect your property at no cost to identify trees that may be diseased, damaged, or structurally compromised. Based on the assessment, you may qualify for free tree trimming, pruning, or removal services to improve safety and protect your property.

This opportunity is made possible through grant funding and is available for a limited time—services will be provided while funds last!

Benefits of Participating:

- Keep your trees healthy and strong to better withstand seasonal storms.
- Reduce the chance of branches breaking and improve overall property safety.
- Support a greener, more resilient Orlando while caring for your landscape.

Are you the homeowner? Yes ☐ No ☐

Name of Homeowner: _____

Address: _____ Zip: _____

Phone: _____ Email: _____

Tree Details

- Tree Location on Property: _____
- Tree Species (if known): _____
- Approximate Height: _____ ft
